

### Calendar Grid Key Questions

How many leaves do you see on yesterday's marker? What color are they? What direction is the wind blowing those leaves?

### Calendar Grid Key Questions

How many markers will we see with exactly 3 leaves? How do you know?

### Calendar Grid Key Questions

What number will we see in the bottom corner for the date on today's marker? How do you know?

### Calendar Grid Key Questions

Can you use the patterns we've discovered to predict what the marker will look like for the day after tomorrow? How many leaves will it have? What color will the leaves be? What direction will the leaves be blowing in?

### Calendar Grid Key Questions

How many leaves will you see on today's marker? How do you know?

### Calendar Collector Key Questions

Do you think we'll get more orange or more blue cubes out of the mystery container today?

### Calendar Grid Key Questions

What color will the leaves be on today's marker? How do you know?

### Calendar Collector Key Questions

What combinations of cubes could our helper pull out of the container?

### Calendar Grid Key Questions

What direction will the leaves be going on today's marker? Can you show the direction with your hands? Can you show that direction with your whole body? What makes you think it will be this direction?

### Calendar Collector Key Questions

We'll put the orange cubes in one row and the blue cubes in the other. How do the two groups compare—are they equal, or are there more of one color than the other?

### Calendar Collector Key Questions

Which color has more? How many more? Which color has less? How many cubes are there in all?

### Calendar Collector Key Questions

Now let's go back and count the collection by 1s. Will we get the same total? How do you know?

### Calendar Collector Key Questions

Let's take all the cubes out of the pocket for this week and set them on this tray where everyone can see them clearly. Do you think we got more orange cubes or more blue cubes this week?

### Days in School Key Questions

How many dots did we have on the ten-frame yesterday? Can you show with your fingers? How did you count the dots?

### Days in School Key Questions

How many dots will we have on the ten-frame after we add the dot for today? How do you know?

Kindergarten | October

2

© The Math Learning Center

### Calendar Collector Key Questions

Now let's put all the cubes together to find out how many we got in all this week. Do you think we'll need more than one counting mat to hold them all? Why?

Kindergarten | October

7

### Days in School Key Questions

How many links did we have in our chain yesterday? Can you show with your fingers? Let's count to check.

Kindergarten | October

4

© The Math Learning Center

### Days in School Key Questions

How many links will we have in the chain after we add 1 for today? How do you know?

Kindergarten | October

5

© The Math Learning Center

### Computational Fluency Key Questions

When we look at all the cards together, do you notice any patterns? Do you see anything that changes in the same way?

Kindergarten | October

2

© The Math Learning Center

### Days in School Key Questions

How many more links do we need to add to our chain to make a group of 5? How many more to make a group of 10? How do you know?

Kindergarten | October

6

© The Math Learning Center

### Computational Fluency Key Questions

How many dots do you see?

Kindergarten | October

3

© The Math Learning Center

### Days in School Key Questions

How many dots (links) do we have in all if we count our finished ten-frames (completed chains) by 10s, and then count the dots (links) we're collecting right now by 1s?

Kindergarten | October

7

© The Math Learning Center

### Computational Fluency Key Questions

Are all the dots the same color? What colors do you see? How many red? How many blue? How many all together?

Kindergarten | October

4

© The Math Learning Center

### Days in School Key Questions

What number do we need to write on our class number line today? What does that number tell us? [*How many days we've been in school.*]

Kindergarten | October

8

© The Math Learning Center

### Number Line Key Questions

(Show several numeral cards.) Can you find the [*any revealed number*]?

Kindergarten | October

1

© The Math Learning Center

### Computational Fluency Key Questions

Look at this card. What do you notice about it?

Kindergarten | October
