Calendar Grid Key Questions

What is the total number of objects on this marker? What two parts go with this total?

Grade 1 | October

6

© The Math Learning Center

Calendar Grid Key Questions

When will you see the next set of [*apples, leaves, nuts, squash*]? How do you know?

Grade 1 | October

2

Calendar Collector Key Questions

What is this graph telling us about? What does it show?

Grade 1 | October

1

© The Math Learning Center

Calendar Grid Key Questions

What observations can you make about the marker, now that we have it posted?

Grade 1 | October

3

© The Math Learning Center

Calendar Collector Key Questions

What do the pictures represent?

Grade 1 | October

2

© The Math Learning Center

Calendar Grid Key Questions

What story could we tell using the pictures on today's marker?

Grade 1 | October

4

© The Math Learning Center

Calendar Collector Key Questions

Are there more triangles or hexagons? How do you know?

Grade 1 | October

3

© The Math Learning Center

Calendar Grid Key Questions

What is an equation we can write to go with today's marker?

Grade 1 | October

5

© The Math Learning Center

Calendar Collector Key Questions

How many fewer triangles than hexagons? Can you prove it?

Grade 1 | October

4

© The Math Learning Center

Calendar Collector Key Questions

How many more trapezoids do we need to have an equal number of trapezoids and rhombuses?

Grade 1 | October

5

© The Math Learning Center

Calendar Collector Key Questions

How can we use this information to tell about our collection?

Grade 1 | October

10

© The Math Learning Center

Calendar Collector Key Questions

Which shape do we most of?
Which do we have least?

Grade 1 | October

6

© The Math Learning Center

Days In School Key Questions

How many squares are marked? How do you know? Is there another way to tell?

Grade 1 | October

1

© The Math Learning Center

Calendar Collector Key Questions

Do we have the same amount of two or more shapes? Can you prove it?

Grade 1 | October

7

© The Math Learning Center

Days In School Key Questions

What number comes next? How do you know?

Grade 1 | October

2

© The Math Learning Center

Calendar Collector Key Questions

What is the total number of triangles collected? How do you know?

Grade 1 | October

8

© The Math Learning Center

Days In School Key Questions

How many 5s are in [*number of days marked*]?
How many 10s? Can you prove it?

Grade 1 | October

3

© The Math Learning Center

Calendar Collector Key Questions

What is the total number of shapes collected this week? How do you know?

Grade 1 | October

9

© The Math Learning Center

Days In School Key Questions

How many more school days until we make a 5? 10? Can you prove it?

Grade 1 | October

4

© The Math Learning Center

Days In School Key Questions

How many more days until we reach
30? 40? How do you know?

Grade 1 | October

5

© The Math Learning Center

Computational Fluency Key Questions

Can you think of a different way
to show the same number?

Grade 1 | October

5

© The Math Learning Center

Computational Fluency Key Questions

How many dots do you see on the top row?
How many do you see on the bottom row?

Grade 1 | October

1

© The Math Learning Center

Number Line Key Questions

What number comes next? How do you know?

Grade 1 | October

1

© The Math Learning Center

Computational Fluency Key Questions

How many do you see in all?

Grade 1 | October

2

© The Math Learning Center

Number Line Key Questions

What number comes before *[any
given number 11–39]*?

Grade 1 | October

2

© The Math Learning Center

Computational Fluency Key Questions

How many more dots are
needed to fill the frame?

Grade 1 | October

3

© The Math Learning Center

Number Line Key Questions

What number will it be in three
more days? Can you prove it?
What number was it two days
ago? Can you prove it?

Grade 1 | October

3

© The Math Learning Center

Computational Fluency Key Questions

How did you figure out how many there are?

Grade 1 | October

4

© The Math Learning Center

Number Line Key Questions

What number(s) comes between *[any two
given numbers]*? How do you know?

Grade 1 | October

4
